

Clark Forklift Parts

Clark Forklift Part - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those operating in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 individual items built for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really amazing intercontinental support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's relentless goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a dominant market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants because this method is particularly economical and allows for minimal use of resources. Established to guarantee maximum efficiency, this system is designed to find and acknowledge the most effective methods for production plant stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The new value engineering program combines modern product improvement and provides improved customer support and service within the industry.
