

TCM Forklift Part

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each global trade. Transporting industrial goods takes place each and every day on our industrious planet. Originally innovated as industrial vehicles during the 1930s in the United States, forklifts gained popularity following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread worldwide.

In nineteen forty nine, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the business is simply known as TCM Corporation. Through the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM began building lift truck manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes numerous models of industrial lift trucks with over 50 years of accumulated technology and expertise, making their products used and recognized all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
